LONG TERM PAVEMENT PERFORMANCE PROGRAM DIRECTIVE

For the Technical Direction of the LTPP Program

Program Area:	Monitoring	Directive Number:	SM-44
Date:	February 21, 2002	Supersedes:	SM-39
Subject:	Upgrade of OnsPlus Software to Version 1.09		

Attached for immediate implementation please find Version 1.09 of the OnsPlus software. This new version of the program contains modifications made in response to problem report SMPPR NA-29, which reported that a significant amount of temperature and rainfall data were being lost at continuous SMP sites due to a time conflict in the software. More specifically, OnsPlus v1.08 was modified to eliminate the loss of records 5 and 6 at the top of the hour, and thus avoid the loss of rainfall and temperature data.

If there are any problems, please submit an SMP problem report (SMPPR) form in accordance with the LTPP Monitoring Directive SM-6

Prepared by: NARSC and TSSC

Approved by:

Aramis López, Jr.
LTPP Team Leader
